

Report of the Commission of Health to the Common Council, March 10th, 1884, on Pump Wells and Well Water of Brooklyn

By Brooklyn Dept of Health

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1884 Excerpt: . dependent on its proximity to the habitations of men. In towns, then, and especially in old towns and large cities, all well water must be viewed with the greatest suspicion, and should never be used for drinking purposes unless examined occasionally by a good analyst. In towns the subsoil is very impure, old cesspits often abound, and the soakage from these percolates into the wells. In the country, too, how often we find within a, few yards of the pump an old brick drain, a privy, or a dunghill? To show to how great an extent sewage will soak from bad drains or cesspools into the sod, Dr. Parkes states that in some loose soils cesspits used for fifty years have never been emptied, and still are not full, owing to soakage. Professor Pettenkofer estimates that, at Munich, 90 per cent. of the excretions pass...
